About Vibrantots Daycare and Educational Program

We have been a licensed daycare center for the past 15 years, we are happy to be a part of the Maryland Excels program, and a friendly part of our community. Our main objective is to support and encourage the process of development and learning from age 18 months to 5 years old. Vibrantots believes children should be given the chance to grow and develop on their own terms and in their own little ways. With proper adult supervision and guidance children thrive in a safe and healthy environment. We have dedicated ourselves in promoting healthy physical, developmental and cognitive skills. When parents are looking for early learning and child care programs they hope to find someone they can trust. We will continue in our efforts to ensure and continuously improve our services to meet the needs of the children and families we service. At Vibrantots we believe that we all share a responsibility to support and nurture children and our own natural desires to be lifelong learners. We put our learning and ourselves on the same level as the child's and commit to our own professional development and personal growth. We learn alongside the children and their families and embrace the opportunity to learn and grow each day.

Mission

The purpose of Vibrantots is to provide and promote licensed, high quality, affordable, safe, friendly and accessible early learning and childcare program to meet the needs of children and families in our community.

VISION

Vibrantots exists to provide a safe, developmentally, inclusive environment for toddlers and preschoolers. Our focus is to provide a stimulating early learning and childcare experience, which promotes each child's social/emotional, physical and cognitive development. Our goal is to support and nurture the children's and our own natural desire to be life-long learners. We are committed to the families we serve, providing support and encouragement.

PHILOSOPHY

We believe that children are competent, capable of complex thinking, curious and rich in potential. We are committed to the "**emergent curriculum**" approach to program planning, in which activities "emerge" based on ideas and interests from both children and staff. We believe play is integral to children's learning and essential to quality of life in childhood. Exploration and play are a child's primary way of understanding the world. Children are agents of their own learning, actively building knowledge, skills, dispositions, and feelings. We are committed to fostering each child's self-esteem, well being and growing need for independence. All aspects of their development and learning are interrelated and interdependent.
